

# *The great outdoors*

 **PatioMaster**®

*In-line sliding patio door*

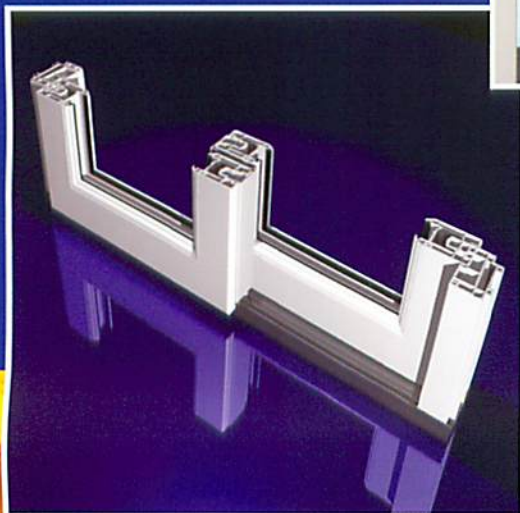

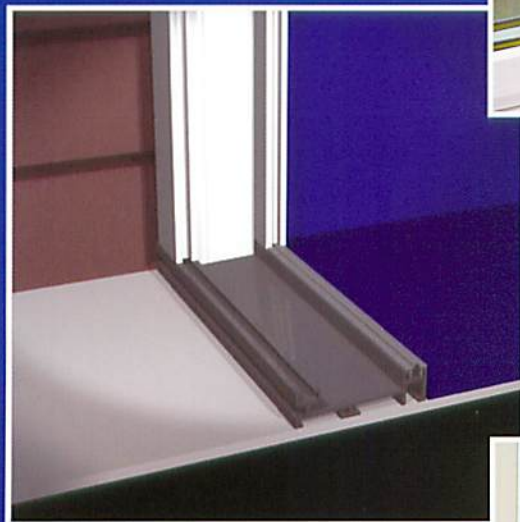

## *A breathing space*

Bring the garden closer to the house and use it like another room. With easy access in summer and a wonderful view in winter, a patio door adds light and air to life - all year round.

## *Create the perfect environment*

Even the darkest of rooms can be transformed with wide expanses of glass. Our doors are both warm and secure with energy efficient seals and security locks.

## *Tested technology*

You can rest assured that these doors have been developed and intensively tested under strict quality control standards. Once installed in your home, they will give high performance with minimum maintenance for many years to come.

The frames are made from impact resistant, thermally efficient PVC-U which is also easy to keep clean. These combined with built in seals and double glazed units offer excellent weather insulation. Trickle ventilation can also be provided to help air circulate through your home.

The very highest levels of security are achieved through multiple locking points and a built in 'anti jacking' system that ensures the door cannot be lifted off from the outside.

*Make a great entrance...*

 **PatioMaster<sup>®</sup>**

**In-line sliding patio door**

## *Looks good, feels great*

Its slimline appearance makes it ideal for both modern and traditional properties.

- ⇒ Suitable for conservatories & porches
- ⇒ Midrail with letter plate available for front entrances
- ⇒ Low threshold/room divider option
- ⇒ Double sliding panel facility for maximum access

## *Perfect partitions*

Using the latest low track option, PatioMaster is ideal as a conservatory partition or room divider. It can also incorporate a double panel sliding facility for maximum accessibility.

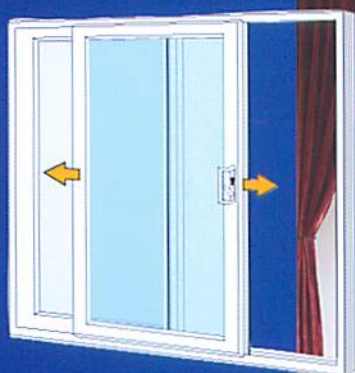

## *Enjoy your garden more*

PatioMaster doors are perfect for warm summer evenings. Pour a glass of wine and make the most of your garden.

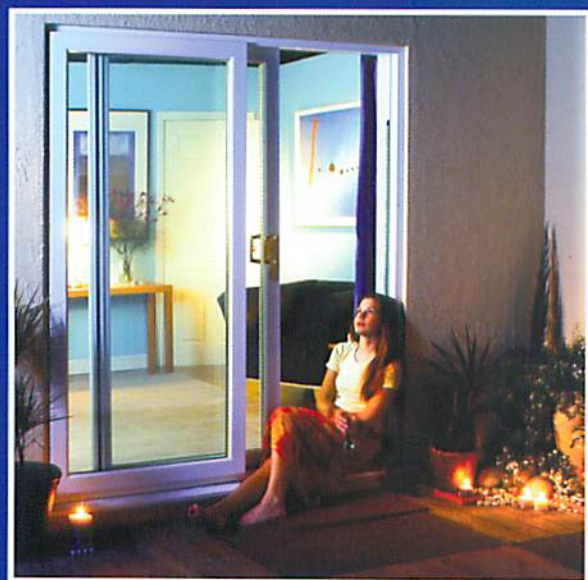

## Easy glider

With just a fingertip touch, the parallel sliding panels glide effortlessly on double rollers along a stainless steel track.

Express your own individual style. Select a range of finishes from light and dark wood grains, white or a combination with wood grain on the outside and white inside.

## Fuss free fitting

The door is specially designed to be efficiently installed, causing minimum disturbance to existing decorations and plaster.

- ⇒ Attractive slim-line appearance
- ⇒ 3 wood grain finishes plus white inside/wood grain outside
- ⇒ Anti jacking system
- ⇒ 4 point hook lock
- ⇒ Designed for trouble free installation
- ⇒ 2, 3 or 4 pane options
- ⇒ Excellent weather protection & heat conservation
- ⇒ Reinforced, low maintenance PVC-U frames
